

# PROMPTUS ELECTRONIC HARDWARE

## **Some Opening Words About Our Catalog:**

### **Staying ahead in the electronic industry means:**

- Getting your new products into production ahead of the competition
- Saving time and money by using low cost readily available standard electronic hardware.

Promptus Electronic Hardware Inc., your single source, strives to help you achieve these goals. Promptus offers a complete range of quality electronic hardware components for bread board, prototype and production applications. The Promptus reference manual lists these components, including all the applications information needed for designing them into your developmental and production systems. A full range of sizes, materials, and finishes allows you a tremendous amount of flexibility.

**Ordering made simple. For your convenience, each part number specified is located on the corresponding page number. In addition a uniquely designed fold out section on the back cover enables you to choose from the various finishes available while still looking at the part page.**

At Promptus we realize there is always a situation where a standard part may not suit your application. Our design and engineering staff is always prepared to help you in the most productive and efficient way. We will assist you in designing and producing product as quickly as possible.

**VIP.** Looking for large quantity prices and scheduled deliveries, become a **VIP** customer. Simply place an order and we'll ship accordingly to meet your desired dock date. Hence, there is no inventory carrying cost incurred and your production line will never go down.

There are many ways Promptus can serve our most valuable commodity, you the customer. Please give us a chance to serve you on all your electronic hardware needs.
