Design and Engineering Support

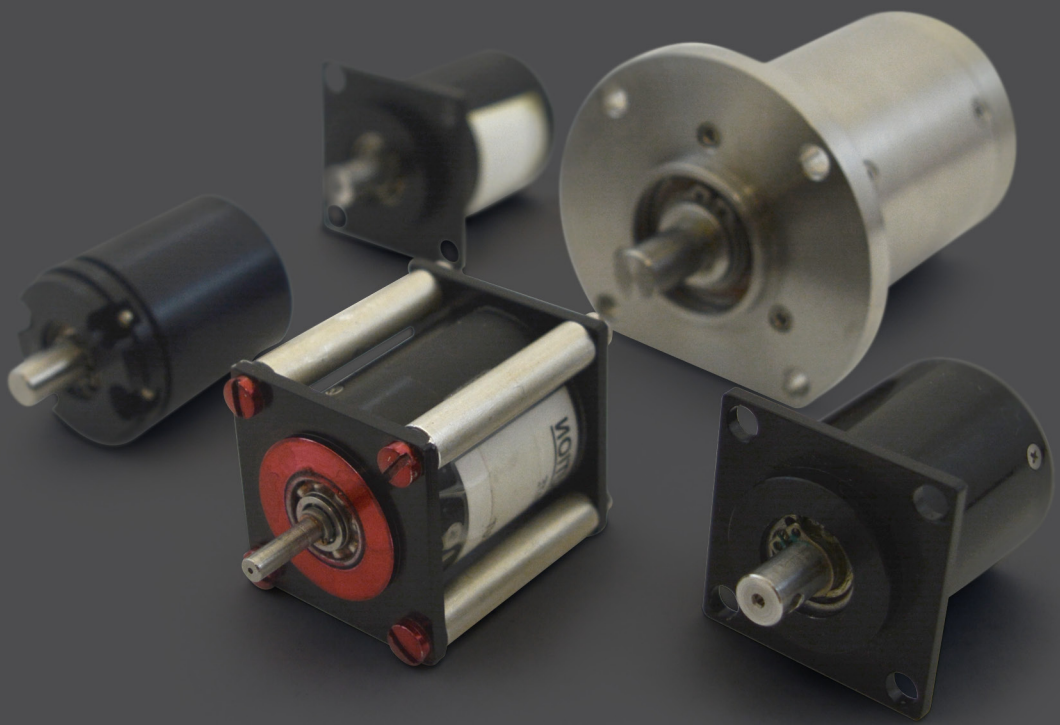
SECS, Inc. has been manufacturing custom components and assemblies for over 50 years. Quality and support are the key elements to SECS, Inc. success throughout the years. When a standard product won't meet your requirements, we can provide alternative solutions through custom design.

Custom Manufacturing and Assemblies

SECS, Inc. can respond to your requests for "special" parts with the engineering support you require. We can handle complete new custom parts, modifications to standard parts and requests for other manufacturers equivalent parts. SECS, Inc. can assemble and test your parts as well. We are leaders in manufacturing and assembly of precision gears, gear boxes, differentials and power transmission assemblies.

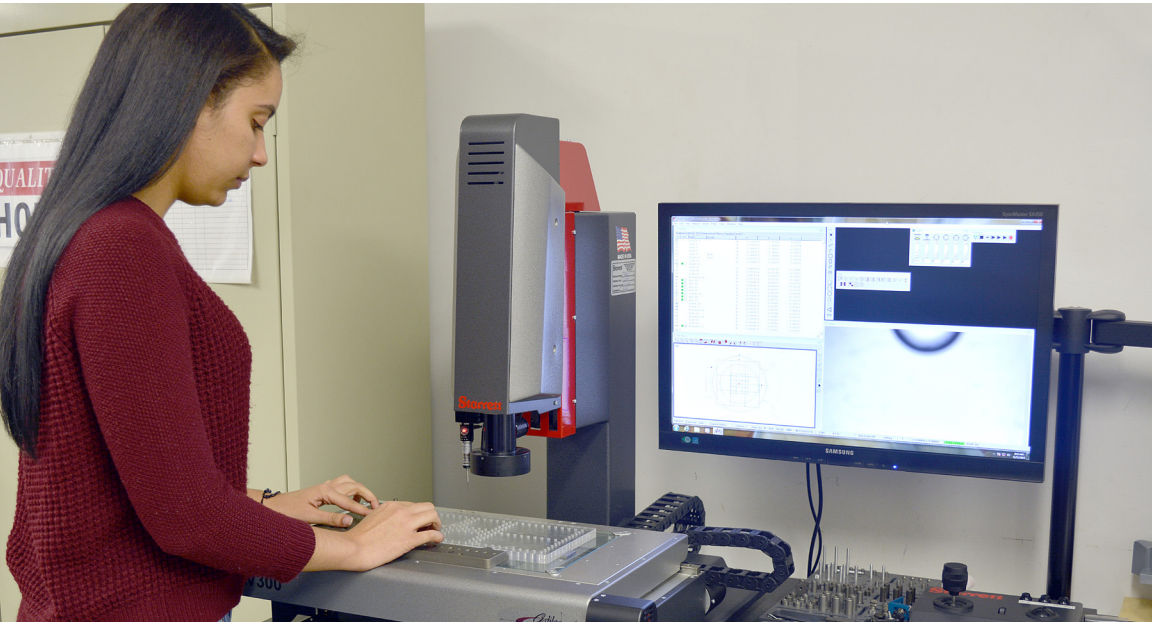
Precision Quality Parts From Stock

SECS, Inc. also carries a complete line of standard quality parts. You can view our standard products offered on our website or simply call us and request our Standard Product Catalog. SECS, Inc. standard parts come with quick delivery and absolute quality.



QUALITY MANUFACTURING

At SECS, Inc., we understand the meaning of the word Quality. We've been in the business for over 50 years and our success has been built around the manufacturing of quality components. All products are checked by our Quality Assurance Department at every step of the manufacturing process. The result is a high quality, dependable product which our customers demand and is backed by the highest quality customer service in the industry.

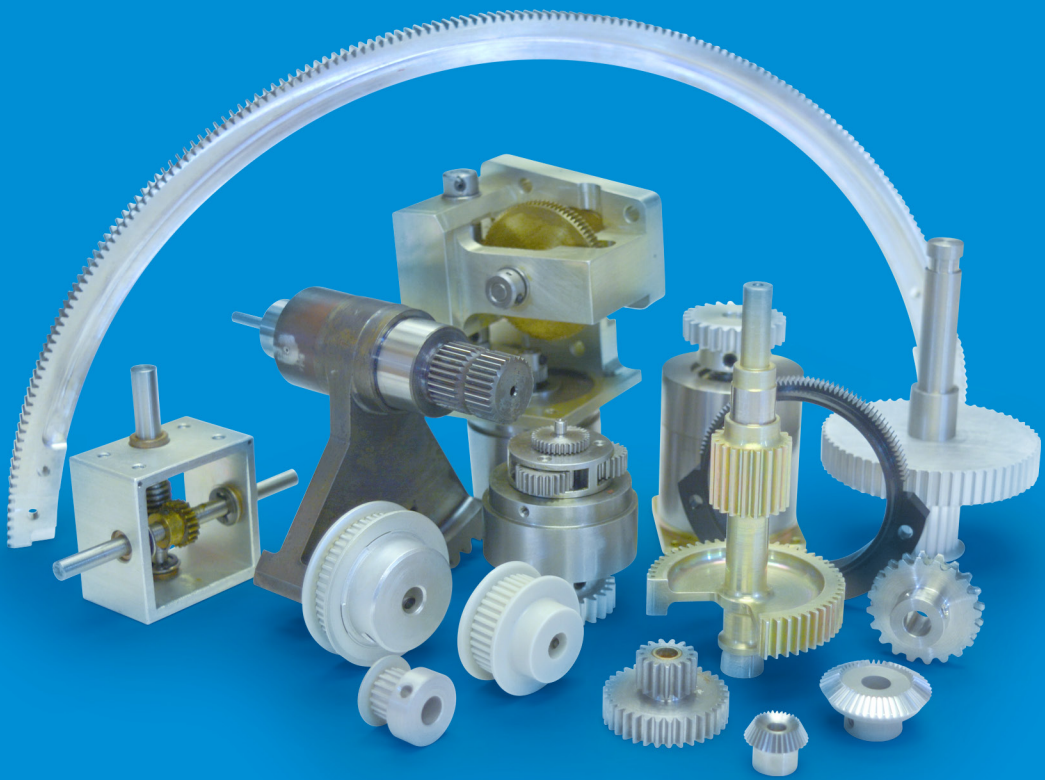


Our Product Line Includes:

- Worm & Worm Gears
- Anti-backlash Gears
- Precision Spur Gears
- Internal Gears
- Helical Gears
- Subassemblies
- Gear Clamps
- Splines
- Sprockets & Chains
- Bevel & Miter Gears
- Differentials
- Precision Ground Shafting
- Precision Gearheads & Speed Reducers
- Timing Belts & Pulleys
- Bearings
- Couplings
- Hardware
- Fasteners
- Linear Motion
- Clutches

Our Customers are World Leaders in:

- Military/Aerospace
- Industrial Equipment
- Medical Device
- Healthcare Industries
- Satellites Communications
- Automation
- Commercial Products
- Telecommunications Equipment
- Robotics
- Instrumentation
- Defense
- Metrology Devices
- Semi-Conductors
- Alternative Energy



CUSTOM GEAR ASSEMBLY

SECS, Inc. manufactures and assembles custom gears and components to meet our customers' specifications in the military and aerospace industries. Our engineers will assist in your design of a custom part to achieve the ultimate product that will meet your expectations. All necessary components are produced in house and our experienced staff assembles the final component while paying close attention to detail to provide optimal design in the assemble. The result is a custom mechanical assembly at the most cost-effective solution while maintaining optimum quality.

SECS, Inc. is an ITAR registered and AS9100C & ISO 9001:2008 certified precision manufacturer of precision gears, gearheads, speed reducers and mechanical drive components. We supply precision components and services that meet or exceed our customers' expectations.

We Provide the Following Capabilities and Services:

- CNC Milling and Turning Operations
- Gear Cutting up to AGMA 14
- Broaching, Drilling, Slotting, Threading, Tapping, Knurling
- EDM Operations
- State-of-the-art Quality Verification Equipment and Processes
- Electromechanical Assembly
- Assembly of Precision Gearheads, Speed Reducers, and Planetary Gearboxes
- Plastic Molding and Assembly Operations
- Plating and Surface Treatments
- Customized Marking and Packaging
- Engineering and Design Support
- Multimillion Dollar Standard Parts Inventory Available From Our Distribution Centers

Certifications and Compliances:

- ISO 9001:2008 Certified
- AS9100C Certified
- ITAR Registered
- RoHS Compliant
- DFARS Compliant
- REACH Compliant
